

## Tenneo LMS V8.2 to launch soon.

After V8.1, we will soon **introduce V8.2** to further enhance the learning experience.

In the quest of making learning matter and driving the LearnTech revolution, Tenneo will soon present the latest version of the learning platform - V8.2. With additional benefits for small and medium enterprises, V8.2 is set to leverage the prowess of Generative AI to make learning intuitive, powerful, and accessible.

V8.2 will strengthen our commitment towards redefining learning and empowering fast-growing organizations to achieve seamless success.

### 1. Tenneo Assistant Beta: Unleashing the Power of Generative AI

At the core of V8.2 will be the revolutionary **Tenneo Assistant Beta**, a Generative AI-based learning partner. Its features are designed to empower your L&D team in achieving business objectives.

It will help you generate questions from uploaded documents and suggest reference material from within your content repository or from the web on the same topic. Tenneo Assistant promises to **reduce administrative workload by up to 50%**, allowing you to focus on creating effective and aesthetic courses for your workforce.

### 2. Content Bundles: A World of Wisdom at Your Fingertips

Embark on a journey of enlightenment with our **multi-vendor library**. It will feature meticulously curated **learning paths delivered in bite-sized, agenda-specific sessions**. The addition of **new courses each month** will ensure a dynamic learning experience for your workforce. Pre-linked to job roles and skills, these courses are set to keep your employees ahead of the curve.

Our **Engagement Package** will offer microlearning nuggets on over 50+ relevant topics. You will also be able to create micro-certifications to enhance upskilling with the **Enhancement Package**. It is a comprehensive learning bundle on soft skills, technical skills, and compliances. With V8.2 you will be able to easily **collaborate with Udemy** to access a vast library of industry and technology-specific courses, ensuring continuous upskilling for your elite employees.

### 3. Smart Courses: Course Intelligence Simplified with a Click

Unlock the true potential of your learning content with Tenneo LMS V8.2. You will be able to transform static files and videos into dynamic **Smart Courses at the click of a button**. Whether it's PDFs, Word documents, or external web links (English Language), V8.2 will empower you to craft compelling **learning experiences for your workforce**.

The **smart translator feature** of V8.2 will help you part ways with language barriers. The impact doesn't stop there – our **recommendation engine** will ensure that learners access relevant content, both from within the LMS and external sources. V8.2 is set to make learning intelligent, accessible, and tailored to individual needs.

### 4. More Connectors: Enhancing Integration for Seamless Learning

V8.2 will expand integration possibilities with new connectors. You will be able to:

- Dive into the world of **Canva for ultra-rapid authoring** with pre-built templates in infographics, short-form videos, and presentations.
- Explore **Xoxoday, an all-in-one corporate gifting platform** that scales with your business.
- Integrate popular HRMS software such as **Akrivia, HROne, and Keka** with **comprehensive HRMS connectors**. This will ensure a seamless flow of user data and single sign-on capabilities.

Tenneo LMS V8.2 will mark a significant leap forward in the LearnTech revolution, delivering not just features but effective solutions to empower workforce learning.

Join us in embracing the future of learning with Tenneo LMS V8.2 - Innovative. Integrated. User-centric.
